

Double Pendulum: tube box projection

Axis-aligned box projection (not octagon).

No interpolation; missing projection steps are not inferred as solver failures.

native DP less 225 lanes; record presence only: projection-unobserved 0/100, display-omitted 0, projection partial 0; displayed partial 0; record coverage only; acceptance unknown.

native DP less 225 lanes; record presence only: adjacent run evidence UNBOUND to plotted series: status="completed".

native DP less 225 lanes; record presence only: plot contract=explicit plotting declarations unbound to native records; step_size=matched to each binary record h/unavailable, expected_steps=explicit_cli_unverified/unavailable, lane_count=explicit_cli_unverified/unavailable.

Official 2026 content is an unbound plotting declaration here; range records alone do not prove run identity, acceptance, or safety.
