x12 | absolute width

scale 1e-308

At 5 s: old 4.4501e-308 | new 4.4501e-308
Native 0 | H 0 | X 0

Curves use saved pooled observers. Author markers use driver final hulls; these saved objects remain distinct.
Tube widths are per step, not all-time union widths. Narrower is not containment or an independent NNCS certificate.
